### Dalton & Gayles Yorkshire Countrywomen

Our September meeting hosted an evening 'Life of a Dame' with Stephen Longstaff. Everyone who attended enjoyed hearing how Stephen started his Dame career. A big thank you to Stephen for attending and entertaining everyone. Also in September the Yorkshire Countrywomen had an outing to Saltburn – a small group of members had an enjoyable day finished off with a fish and chip tea. More outings are planned over the next few months.

Our next meeting on Tuesday October 1<sup>st</sup> with guest speaker Andrew Coghlan from Coghlan's of Barningham, is 'What it takes to be an Artisan Provider'. Everyone is welcome to attend what promises to be an interesting evening.

### STOP PRESS: Hedgehogs...

The Holmedale Nature Network has now rescheduled our talk on "Helping Hedgehogs" by Nicky Lancaster, to **Monday 18<sup>th</sup> November**. It was postponed from Monday 23<sup>rd</sup> September due to heavy rainfall and flood risk.

### HUGE thank you

I would like to extend a huge thank you to all who made this year's produce show a great success; the competitors and committee. We ended up having a great day and making a profit! and it was lovely to see so many people. Another thank you to the hard working team who gave us a superb meal and dance in the evening – very enjoyable.

Tony Orton, Barningham

## WHORLTON & WESTWICK NEWS

**Whorlton Bridge Repairs:** VolkerLaser has made progress with cable crane installation over several weeks. This is a complex structure designed specifically for this bridge. There are two towers: South is 12.5m high, North is 8m high. There are five catenary cables spanning 95m between the towers. The central cable carries materials and bridge deck components during the dismantling and construction process. The two inner cables are aligned vertically to the bridge suspension chains and are used to lift, remove and re-install them. The two outer cables carry an under-deck platform which is operated by four remote control electric winches to pull it transversely across the river. The height of the platform can be adjusted using four hand-winches attached to the platform from the cables above. The cable crane is currently being commissioned.
